Page 1/6 Date 23/11/2016

## 1) Identification of the substance/mixture and of the company/undertaking

1.1	Production Identifier Product name	Mr. Bond
1.2	Relevant identified uses of the substance or mixture and uses advised against Identified uses	Impregnation
1.3	Details of the supplier of the safety data sheet	eicó Paints Limited 861 - 863 Fulham Road London, UK - SW6 5HP +0845 073 9432
1.4	Emergency telephone number	Contact National Centre via Hospital or Registered Medical Practitioner.

## 2) Hazards identification

2.1	<u>Classification of the substance or mixture</u>	
	Physical hazards	Not classified
	Health hazards	Not classified
	Environmental hazards	Not classified
2.2	<u>Label elements</u>	Labelling according to Regulation (EC) No. 1272/2008 [CLP]
	Precautionary statements P102	Keep out of reach of children.
	Special rules for supplemental label elements for certain mixtures Not applicable	
2.3	<u>Other hazards</u>	No

## 3) Composition/Information on Ingredients

3.2	<u>Mixtures</u> Hazardous ingredients	None
-----	--	------

## 4) First-aid measures

4.1	<u>Description of first-aid measures</u> <u>General</u> In case of an accident or if feeling any discomfort seek medical assistance immediately. Never attempt to give an unconscious person anything orally. If casualty is unconscious, place in a position that eases breathing and consult a physician.  <u>Inhalation</u> Remove affected person to fresh air and keep warm and at rest in a position comfortable for breathing.
-----	---

# ican Mr. Bond

Page 2/6 Date 23/11/2016

Ingestion

Rinse water of affected person with plenty of water (if conscious). Contact physician if larger quantity has been consumed. Do not induce vomiting.

Skin contact

Remove contaminated clothing immediately. Wash skin thoroughly with soap and water. Do not use solvents or thinners.

Eye contact

Rinse immediately with plenty of water for 10 to 15 minutes with open eyelids. Remove contact lenses if any and continue rinsing. Get medical attention if irritation persists after washing.

4.2 Most important symptoms and effects, both acute and delayed

No information available

4.3 Indication of any immediate medical attention and specific treatment needed

None

## 5) Firefighting measures

5.1 Extinguishing mediaSuitable extinguishing media

Alcohol resistant foam, carbon dioxide (CO<sub>2</sub>), extinguishing powder, water mist

Unsuitable extinguishing media

Do not use water jet as an extinguisher, as this will spread the fire.

5.2 Special hazards arising from the substance or mixtureSpecific hazards

Substance will produce dense black smoke. Exposure to decomposed products can prove to be a health hazard.

Hazardous combustion products

Thermal decomposition or combustion may liberate Carbon Monoxide, Carbon Dioxide (CO<sub>2</sub>) and Nitrogen Oxide (NO<sub>x</sub>).

5.3 Advice for firefightersProtective actions during firefighting

Cool containers exposed to heat with a water spray and remove them from the fire area if it can be done without risk. Control run-off water by containing and keeping it out of sewers and watercourses.

Special protective equipment for firefighters

Use protective equipment appropriate for surrounding materials and respirator.

## 6) Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Remove potential sources of ignition. Do not inhale fumes. See protective measures under points 7 and 8 of this safety data sheet.

# ican Mr. Bond

Page 3/6 Date 23/11/2016

6.2 Environmental precautions

Do not allow to enter into surface water or drains. In case of gas escape or of entry into waterways, soil or drains inform responsible authorities

6.3 Methods and materials for containing and cleaning up

Prevent spread and control spills (by containment or installing oil booms) immediately. Absorbing spillage with non-combustible, absorbent materials, eg. sand, earth, vermiculite, diatomaceous earth, and place in container for disposal according to local regulations (under point 13 of this safety data sheet). Clean with detergents. Avoid solvent cleaners.

6.4 Reference to other sections

None

## 7) Handling and storage

7.1 Precautions for safe handling

Avoid contact with skin, eyes and clothing. Avoid inhalation of gases, vapour or spray. Do not eat drink or smoke when using. See personal protection measures under section 8 of this safety data sheet. Never forcefully empty the container with pressure, keep substance in original container. Comply with safety and health conditions. Do not allow to enter groundwater, drains or sewage, even in small quantities.

7.2 Conditions for safe storage, including any incompatibilities

Store away from oxidising agents, strong alkaline and strong acidic materials to prevent exothermic reactions.

Storage area and container requirements

Keep container tightly sealed in a well-ventilated space at temperatures between 5°C and 35°C. Store away from sources of heat and direct sunlight. When using do not smoke. Only allow access to authorized staff. Prevent leaks and consequent groundwater pollution.

7.3 Specific end uses

None specified

## 8) Exposure Controls/personal protection

8.1 Control parameters

None

8.2 Measures to control exposure

Appropriate engineering controls

Ensure there is good ventilation by using local or general exhaust air collection. If not sufficient to keep the solvent vapour concentration below the exposure limits a breathing apparatus must be worn.

Personal protection

Eye and face protection                      Wear suitable eye protection, tightly fitting safety glasses

Skin protection

Hand protection                                      Wear chemical resistant safety shoes.

Suitable material                                      NBR (Nitrile rubber)

Required characteristics                              DIN EN 374

# ican Mr. Bond

Page 4/6 Date 23/11/2016

Breakthrough time	480min (maximum wearing time)
Thickness of glove material	±0.1/0.4mm
Additional hand protection	Wear protective gloves for each use, regularly checking their condition. Use skin cleaning and skin care products after use.
<u>Body protection</u>	Not required
<u>Respiratory protection</u>	When spraying use air fed respirator. For other operations, in well ventilated areas, airfed respirators can be replaced with a combination of charcoal filter and particulate filter mask.
<u>Environmental exposure</u>	Do not discharge into drains or surface water.

## 9) Physical and chemical properties

9.1	Information on basic physical and chemical properties	
	Appearance	Liquid
	Colour	White transparent
	Odour	Noticeable
	Odour threshold	No data available
	PH value	7-9
	Melting point/range	No data available
	Boiling point/range	No data available
	Flash point	>100°C
	Evaporation rate	No data available
	Flammability	No data available
	Lower explosion limit	No data available
	Upper explosion limit	No data available
	Vapour pressure (20°C)	No data available
	Relative vapour density (20°C)	No data available
	Density (20°C)	1 - 1.1g/cm <sup>3</sup>
	Water solubility (20°C)	100 Wt %
	Log PO/W	No data available
	Ignition temperature	No data available
	Decomposition temperature	No data available
	Viscosity (20°C)	ca. 500mPa·s
	Explosive properties	No data available
	Oxidising properties	No data available

The product has not been tested on the properties that are listed on the safety data sheet as "No data available".

9.2	Other information	No
-----	-------------------	----

## 10) Stability and reactivity

10.1	<u>Reactivity</u>	There are no known reactivity hazards associated with this product.
10.2	<u>Chemical stability</u>	Stable at normal ambient temperatures and when used as recommended. See storage and handling measures under points 7 of this safety data sheet.
10.3	<u>Possibility of hazardous reactions</u>	Avoid oxidising agents, strong alcaic and strong acidic materials to prevent exothermic reactions

# ican Mr. Bond

Page 5/6 Date 23/11/2016

- 10.5 Incompatible materials  
There is no information available
- 10.6 Hazardous decomposition products. Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours.

## 11) Toxicological Information

- 11.1 Information on toxicological effects  
There is no information available

## 12) Ecological Information

Ecotoxicity	Avoid release into the environment. Refer to special safety instructions.
Toxicity	No data recorded.
Persistence and degradability	No data recorded.
Bioaccumulative potential	No data recorded.
Mobility in soil	No data recorded.
Results of PBT and vPvB assessment	No data recorded
Other adverse effects	None known.

## 13) Disposal considerations

### Waste treatment methods

Avoid release to the environment. Refer to special safety instructions. Waste disposal according to EC directives 75/442/EEC and 91/689/EEC in the corresponding versions, covering waste and hazardous waste. Contaminated packaging must be emptied and can be recycled following appropriate cleaning. Uncleaned packaging should be disposed of in the same manner as the medium.

## 14) Transport Information

General	The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).
UN Number	Not applicable
UN proper shipping name	Not applicable
Transport hazard class(es)	Not applicable
Packing group	Not applicable
Environmental hazards	
Environmentally hazardous substances	No
Marine pollutant	No
Special precautions for user	Not applicable
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code	Not applicable

## 15) Regulatory information

- 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture  
 EU Legislation  
 Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (as amended).  
  
 EU limit value for this product (cat. A/h): 30g/l (2010). Product contains less than 30g/l of VOC
- 15.2 Chemical safety assessment  
 No chemical safety assessment has been carried out.

## 16) Other information

Revision date 23/11/2016

Revision 1

### Classification of substances

ADR	European Agreement concerning the International Carriage of Dangerous Goods by Road
ASTM	American Society of Testing and Materials (US)
CAS No	Chemical Abstracts Service Number (see ACS - American Chemical Society)
DNEL	Derived No-Effect Level
DT50	Degradation Time for 50% of compound
EbC50	Median effective concentration (biomass, eg. of algae)
EC50	Median effective concentration
EINECS	European Inventory of Existing Commercial Chemical Substance
ELINCS	European List of Notified (New) Chemicals (see Tab 7, Background - Guide)
ErC50	Median effective concentration (growth rate, eg. of algae)
EWC	European Waste Catalogue
IATA	International Air Transport Association
IC50	Concentration that produces 50% inhibition
IMDG	International Maritime Dangerous Goods Code
IMO	International Maritime Organization
LC50	Concentration required to kill 50% of test organisms
LD50	Dose required to kill 50% of test organisms
LEL	Lower Explosive Limit/Lower Explosion Limit
LOAEL	Lowest observed adverse effect level
MRL	Maximum Residue Limit
NOAEL	No Observed Adverse Effect Level
NOEC	No Observed Effect Concentration
OEL	Occupational Exposure Limits
PBT	Persistent, Bioaccumulative or Toxin
PNEC	Predicted Non Effect Concentration
STEL	Short-Term Exposure Limit
TWA	Time-Weighted Average
vPvB	Very Persistent and Very Bioaccumulative
