

iCan Ms Flo

Data Sheet

iCan Ms Flo is a high quality additive intended to extend the open time of low solvent products. It is also suitable for diluting and improving the flow of water based products. ICan Ms Flo is almost odorless and environmentally friendly.

Area of Use

Use with low solvent, water based products

Application

Use with a roller or brush, not suitable for spray application. ICan Ms Flo can be used as a thinner with the ICan line, which extends the open time while delaying the drying time so there is more freedom for application. Add max 10% to water based products. With low solvent wall paints, add max 5%.

Technical Information

Colour: Transparent

Application: Brush or roller (not spray)

Viscosity: Ca 13 sec. DIN 4mm bij 20°C

Shelf life: 12 months in unopened packaging Solvent/Cleaning of tools: hand warm water directly after use Density: 1 kg/litre.

Safety

Handle with care. Consult material safety datasheet and follow all local and national regulations. Avoid inhalation and contact with skin and eyes. Do not swallow. Take precautions against possible risk of fire and explosion as well as protection of the environment. Apply only in well ventilated areas. Must not be poured down the drain, dispose of it according to local regulations. Hand in empty cans to your nearest recycling depot.

KEEP AWAY FROM CHILDREN

Environmental Protection

The product is not classified as dangerous for the environment. The product should not be allowed to enter drains or water courses. Dispose in accordance with regulations from local authorities.
